

Safe Spaces & Smiling Faces: Supporting Glenoaks School

Every child deserves to learn in a space that is safe, supportive, and filled with joy. That's exactly what Glenoaks School in Kensington, Johannesburg has been providing for over 50 years, and it was an honour for us to contribute to their mission in a meaningful way.

Glenoaks School is a specialised remedial education centre that works with learners who have unique learning needs. More than just a school, it is a nurturing environment where children are embraced with compassion, empowered through tailored learning, and supported holistically by passionate educators and therapists. Their focus is not only on academic development but on emotional growth and personal empowerment, ensuring every child feels seen, understood, and capable.

When Glenoaks reached out about the urgent need to upgrade and install **electric fencing around the school perimeter**, we knew we wanted to be involved. For a school doing so much to protect and uplift its learners from the inside, we wanted to ensure that they were equally protected from the outside.

This upgrade wasn't just about security, it was about peace of mind for the staff, families, and most importantly, the children who walk through those gates each day. It was about safeguarding a space that radiates care and connection.

Adding a Little Joy to the Field

Of course, we couldn't show up without adding a bit of fun into the mix. Alongside the fencing installation, we donated **collapsible soccer nets** for the school's multi-use sports field, creating even more opportunity for play, movement, and laughter. Today, those nets are the centre of after-school games, physical education, and many big (and small) victories on the field.

Seeing the smiles and excitement that followed reminded us: safety creates the foundation, but joy builds the spirit. We're proud to have played a small part in their journey, helping ensure that their learners can continue to thrive in a secure, happy environment.

Because when children feel safe, supported, and free to play - the possibilities for growth are endless.
